Order Management

HR and Compliance

1. Order Management System:

Maximize efficiency from quote to delivery with our comprehensive order management system. It simplifies:

- **Quotation Generation:** Effortlessly convert inquiries into quotes**.**
- **Rate and Credit Terms:** Customizable as per an approval matrix.
- **Freight Booking:** Easy assignment of fleets and scheduling.
- **Documentation:** Digital handling of loading, unloading, and delivery challans & documents.
- **Route & Expense Planning:** Optimize routes and forecast expenses upfront.

2. On-Road Tracking and Analysis:

Gain real-time insights and maintain control with:

- **GPS Tracking:** Live location of vehicles.
- **Alerts:** Instant notifications for route deviations or fuel inconsistencies.
- **Reporting:** Daily summaries via WhatsApp/Email on performance and status like KMs, Delivery, etc.
- **Exception Alerts:** Immediate reporting on unforeseen events like breakdowns.

3. Accounts and Finance:

Streamline your financials with:

- **Comprehensive Accounting:** Full ledger and entry capabilities.
- **Profitability Analysis:** Insightful reports on vehicle, trip, and customer bases.
- **Tax Reconciliation:** Automated GST, TDS, TCS reconciliation for ease.
- **No Duplicate Entries:** Seamless integration from order to sales entry.
- **Custom Reports:** Tailored WhatsApp/email/MIS reports.

4. Credit Management System:

Efficiently manage debtor relations through:

- **Credit Terms:** Pre-defined party wise with cap and customizable within an approval matrix.
- **Outstanding Tracking:** Detailed bill-to-bill tracking and reports.
- **Reminders:** Automatic credit reminders to debtors on their WhatsApp/email.
- **Reconciliation:** Regular and systematic periodic balance confirmations and reconciliations.

5. Service and Part Management:

Ensure vehicle longevity and service efficiency with:

- **Service History Logs:** Detailed vehicle-wise records.
- **Reminders:** Never miss a crucial service date and other periodic service benefits.
- **Cost Sheets:** Detailed service and parts cost analysis.
- **Warranty and Follow-ups:** Streamlined service follow-up and warranty claims.
- **Parts Management:** Comprehensive stores and parts management system.

6. HR and Compliance:

Safeguard compliance and manage HR with:

- **Document Management:** Secure storage of employee data and documents such as KYC, DL, etc.
- **Reminders:** Automated timely reminder of expiration of licenses, insurances, etc.
- **Compliance Alerts:** Stay ahead of regulatory commitments of GST, TDS, TCS and other tax due dates and compliances.
- **Financial Commitments:** Efficient handling of EMI, Credits, Employee advance or other salary deductions, and more.
